<b>G4-SO3:</b> Total number and percentage of operations assessed for risks related to corruption and the significant risks identified	This page	<p>All business units were assessed for risks related to bribery and corruption in 2015, including through the use of on-site assessment as part of our combined assurance audit programme.</p> <p>In addition, our Code of Business Principles and Ethics and related policies are provided to all employees (100%), and all employees have been advised that the company will take active steps against fraud and corruption in all its forms, including bribery and extortion. Our Group Compliance team provide both DVD training specifically for employees who do not have access to computers, and online training for others. In addition, face-to-face training is provided at the site level (using a risk based assessment to determine the content of the presentations and the specific sites). An online code of ethics training module, launched in September 2012, contains two anti-bribery modules. A bribery and corruption prevention on-line module was also launched to employees most at risk.</p>	Fully	Yes

<b>G4-SO3:</b> <i>continued</i>		In 2015, AngloGold Ashanti updated its anti-bribery and anti-corruption (ABAC) policy, and also provided practical guidance for certain ABAC scenarios. This policy and guidance was distributed and communicated globally to all employees. In addition, all employees without online access receive annual DVD training (with or without local-language facilitators, as needed) that includes attention to bribery and corruption matters. As well, utilising a risk-based approach, “live” in-person training is also provided, covering not just bribery and corruption but related issues such as conflicts of interest, receiving gifts, interacting with government officials, and procedures for hiring agents and intermediaries, to name only a few of our trainings. These trainings and communications are in addition to our posters, corporate email communications, regular compliance newsletters and other newsletter articles, and compliance intranet portal communications, along w/SMS communications in certain jurisdictions.
